exe file and a Windows service that both monitor for network status changes and restart if Windows Firewall has been disabled, as well as enabling certain ports for the use of applications that are provided with the package. The setup package is about 483.87 MB (5085822 bytes) when downloaded. Program features. AAA Logo Business Edition 3.10 is designed for Internet sites and businesses that have a concern about business continuity and their IT infrastructure, as well as for users that seek protection against common cyberattacks. The program features a set of tools and service agents that operate in the background on a user's PC and ensure that the computer is protected from common Internet threats, such as malware and DDoS attacks. These tools and agents monitor for security threats on the network and reset the Windows Firewall if it is disabled and port access is restricted. Program details. AAA Logo Business Edition 3.10 is a graphical application for Microsoft Windows. The setup package is about 483.87 MB (5085822 bytes) when downloaded. The application is designed to be used by individual

users. The main program executable is aascf7.exe. The software installer includes 8 files.
